

Data and Digital

in Adaptive Programming and MLE

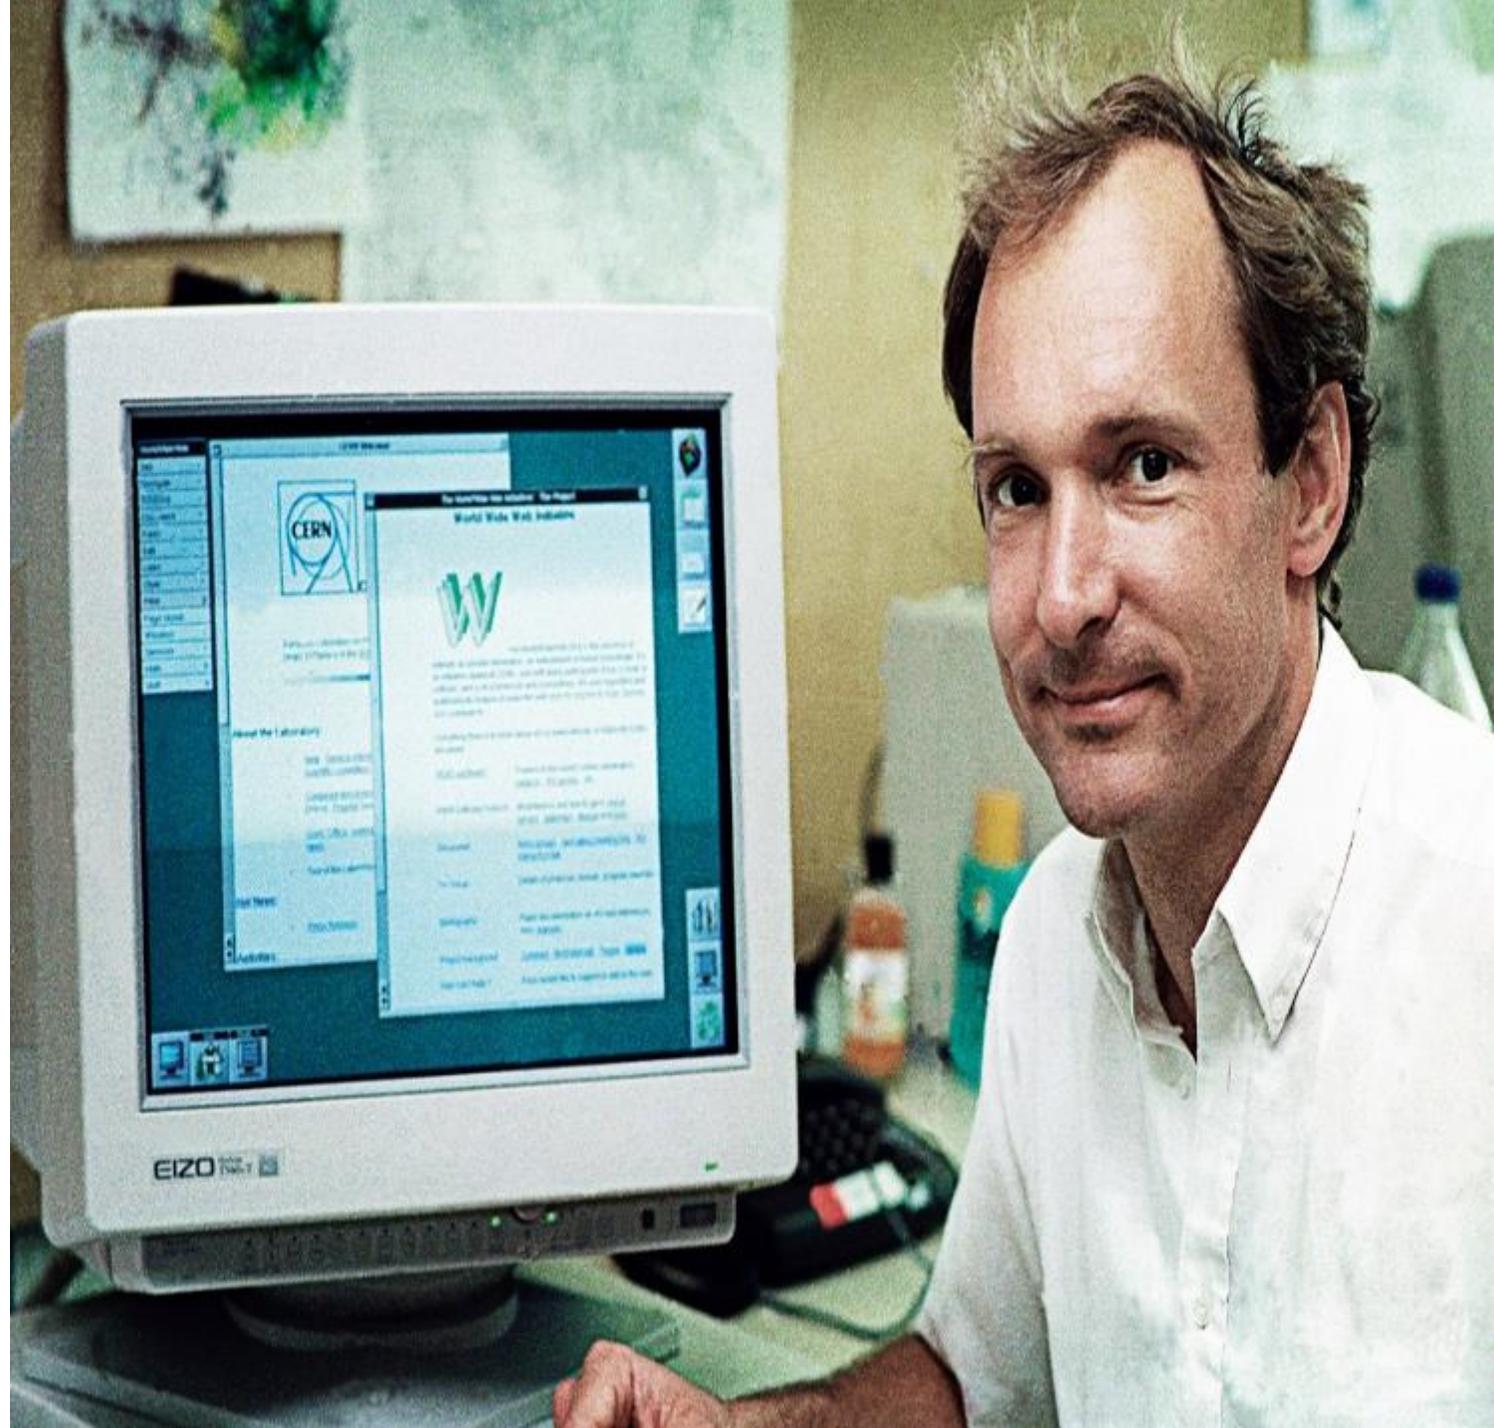

Michael P. Canares

Senior Research Manager for Digital Citizenship

World Wide Web Foundation?

Founded by Tim Berners-Lee to
advance the open web as a
public good and a basic right
for everyone

What we do

We are working for **digital equality**
- a world where everyone has the
same rights and opportunities
online

Digital Citizenship

Digital Inclusion

Senior Research Manager for Digital Citizenship

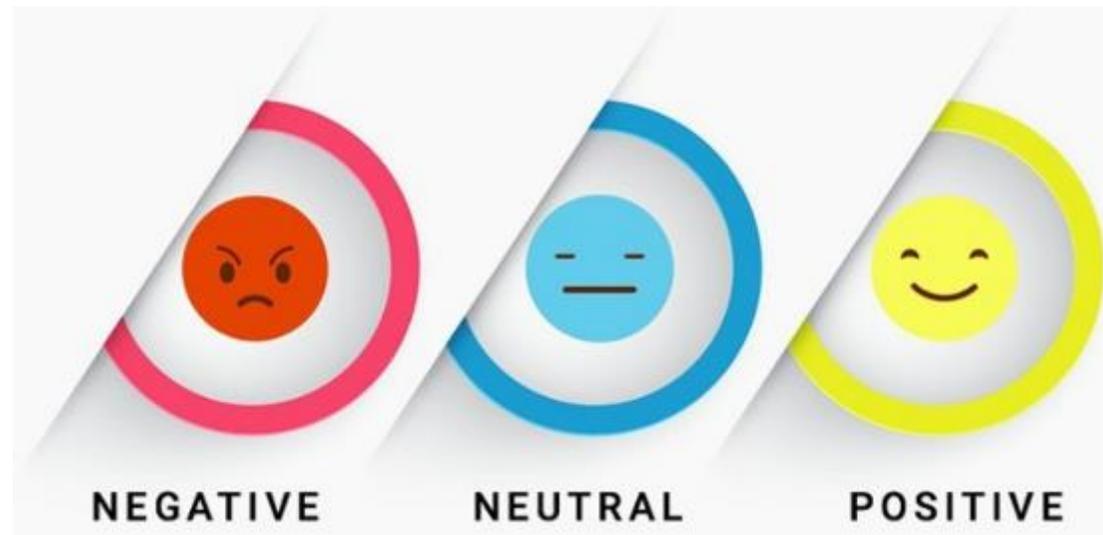

Three
questions....

1.

What is our appetite for alternative data sources to support our MLE function?

People's voices

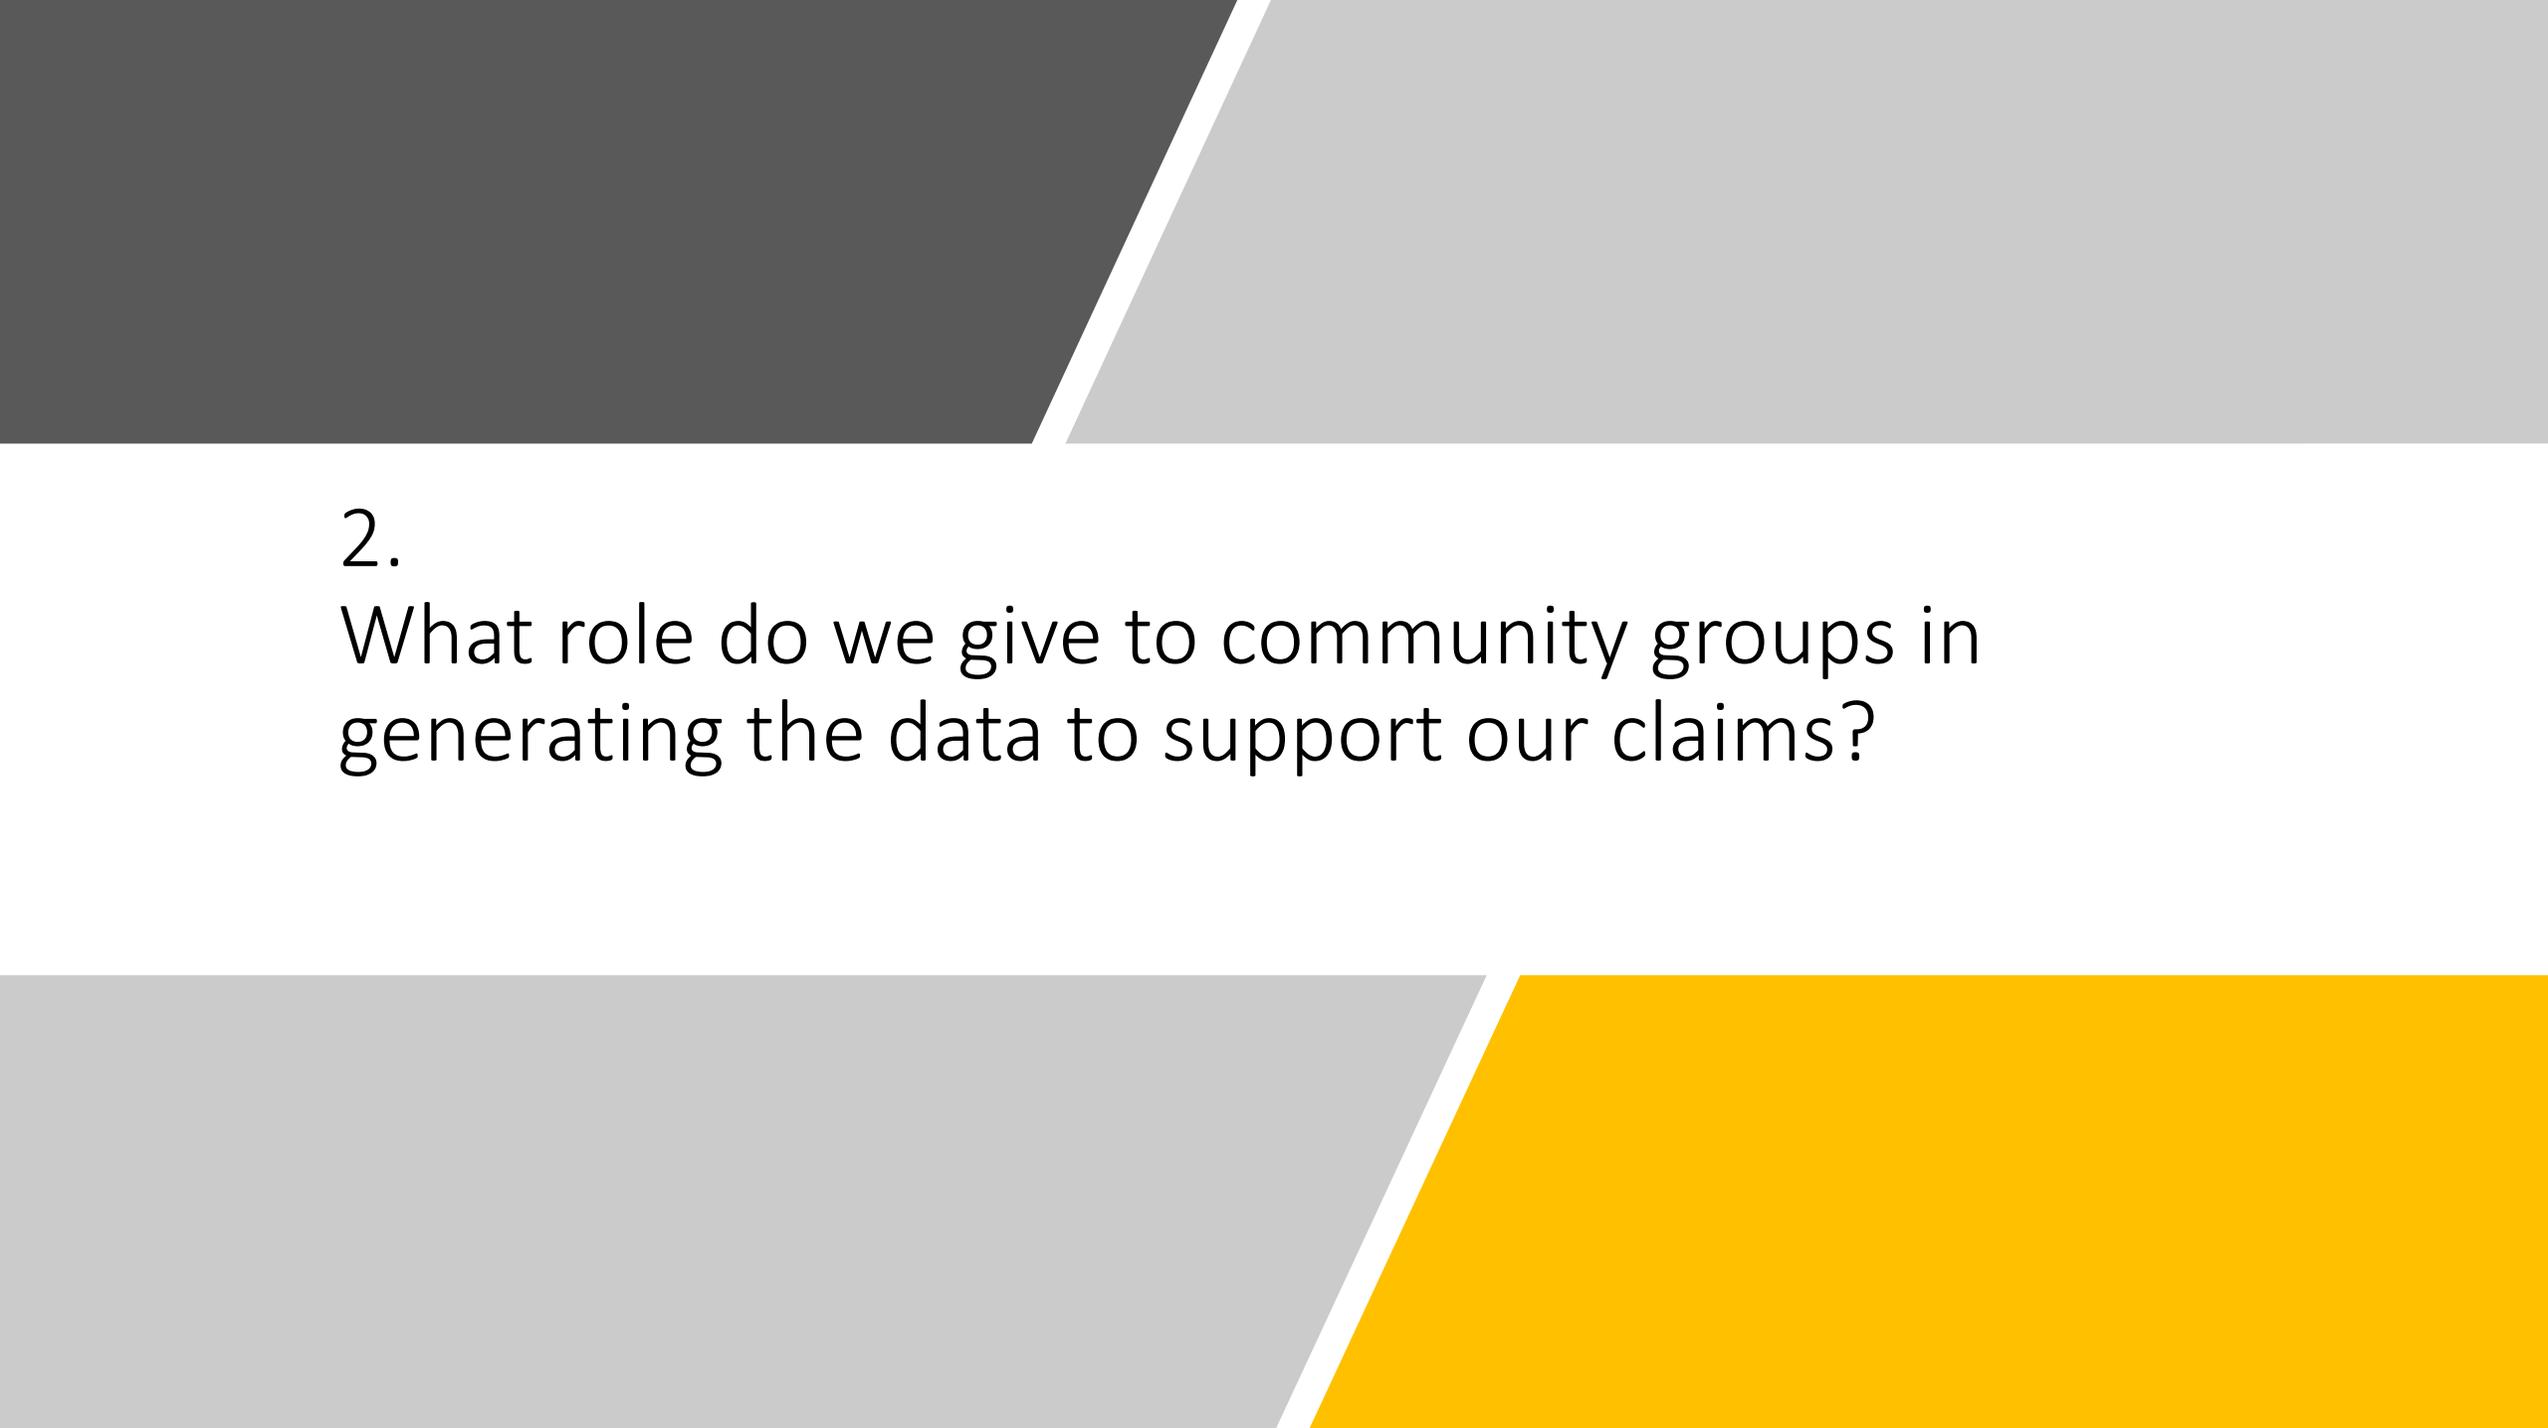

Conversation detected

Topics of interest

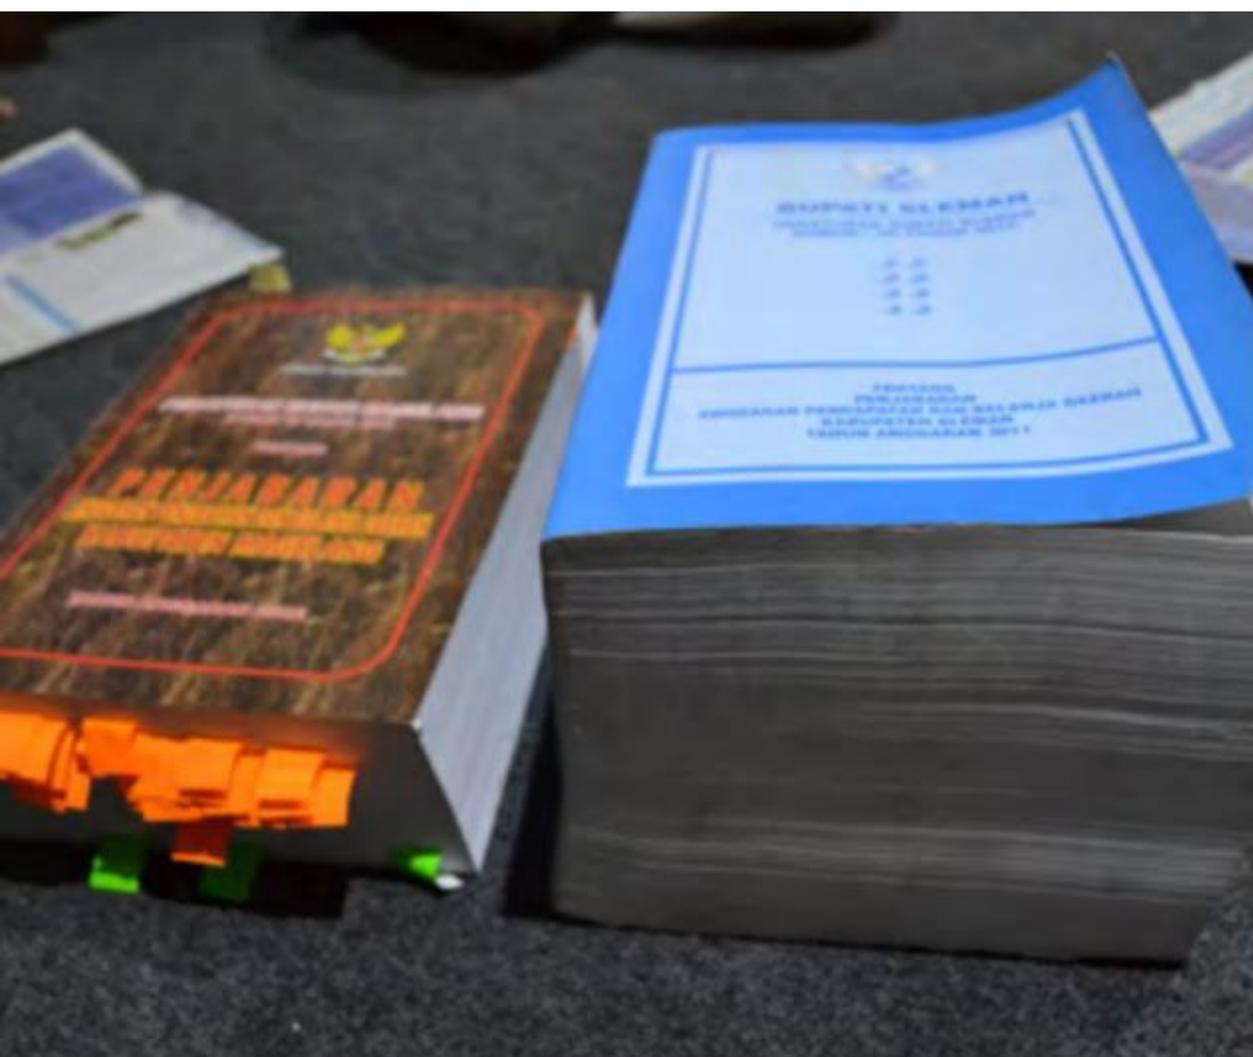

Real-time analysis

2.

What role do we give to community groups in generating the data to support our claims?

TRAINING

MAPPING

2.

Are we just farming data from our project participants? Or are we empowering them to collect and act on the data?

ZULMA SANTOS BRITZ

7 Acceso a Agua potable.

La fila cuenta con agua potable, pero no es constante, no lo tiene durante la mayor parte del día o no cuenta con canilla, o está ubicada fuera del predio de su vivienda

Issues and Challenges

- Digital divide hampers representativeness, so tools have the tendency to empower the already empowered
- Data privacy is a serious concern, especially in context where we collect personally identifiable information
- Use of digital tools requires capacity at all levels – donor, implementer, partners, project participants
